The mission of New Orleans Baptist Theological Seminary is to equip leaders to fulfill the Great Commission and the Great Commandments through the local church and its ministries.

**Core Value Focus**
The seminary has five core values. This course supports the five core values of the seminary.

*Doctrinal Integrity*: Knowing that the Bible is the Word of God, we believe it, teach it, proclaim it, and submit to it. Our confessional commitments are outlined in the “Articles of Religious Belief” and the “Baptist Faith and Message 2000.”

*Spiritual Vitality*: We are a worshiping community emphasizing both personal spirituality and gathering together as a Seminary family for the praise and adoration of God and instruction in His Word.

*Mission Focus*: We are not here merely to get an education or to give one. We are here to change the world by fulfilling the Great Commission and the Great Commandments through the local church and its ministries.

*Characteristic Excellence*: What we do, we do to the utmost of our abilities and resources as a testimony to the glory of our Lord and Savior Jesus Christ.

*Servant Leadership*: We follow the model of Jesus and exert leadership and influence through the nurture and encouragement of those around us.

**Curriculum Competencies Addressed**
The seminary has seven curriculum competencies: Biblical Exposition, Christian Theological Heritage, Discipleship Making, Interpersonal Skills, Servant Leadership, Spiritual and Character Formation, and Worship Leadership. This course addresses Discipleship Making, Interpersonal Skills, and Servant Leadership.
Course Description
Because humans live in community social workers often take a broader view of social needs. In this course students will use their social concern, Christian values and critical thinking skills to better understand how to assist those who struggle and have been relegated to society’s margins, empowering the marginalized to create a healthier environment and to create social change in keeping with Scriptural mandates to practice Godly social justice.

Learning Objectives
Macro Social Work practice requires an ability to understand the context in which peoples live, the institutions and organizations that affect their lives, and how to effectively intervene in these arenas to bring about God’s justice for those who have difficulty doing so. Thus, upon completion of this course, students will be able to:

1. Define macro social work practice;
2. Describe a social worker’s role at the community, organizational, national and international level;
3. Design helping strategies for individuals and groups at a macro level;
4. Recognize the difference between a helpful organization and ones that are not;
5. Identify models of ministry that show best practices of community and organizational improvement;
6. Argue effectively for a Biblical concept of social justice at the macro level.

Required Readings
The following texts and resources are required readings for class discussions and are to be read in their entirety unless otherwise specified, chapters for Modules 12, 13 and 14 will be made available in Blackboard.

Synthesis Paper

The synthesis paper is a 15 page paper (exclusive of Title Page and Bibliography, I really want 15 pages of “meat”) in which you take a specific social problem, apply a specific macro social work intervention (or several interventions) and situate them within a biblical and Christocentric
worldview. You will use no fewer than 15 sources, at least 10 of which you must come from outside of assigned materials. The goal of the paper is to apply learning from the class, integrate scripture and Christian thinking and arrive at a solution to a social problem of your choosing. Below you will find the rubric used to grade the paper.
