Mission Statement

The mission of New Orleans Baptist Theological Seminary is to equip leaders to fulfill the Great Commission and the Great Commandments through the local church and its ministries.

Core Value Focus

Spiritual Vitality is addressed by reminding students that a dynamic relationship with God is vital for effective ministry.
3. **Mission Focus:** We are not here merely to get an education or to give one. We are here to change the world by fulfilling the Great Commission and the Great Commandments through the local church and its ministries. This course addresses Mission Focus by helping students understand the biblical foundations for fulfilling the Great Commission and the Great Commandments.
4. **Characteristic Excellence:** What we do, we do to the utmost of our abilities and resources as a testimony to the glory of our Lord and Savior Jesus Christ. Characteristic Excellence is addressed by preparing students to excel in their ability to interpret Scripture, which is foundational to effective ministry.

Assignments and Evaluation Criteria

Personal View of Aging Paper

Write a 5 page paper examining your personal view of aging. Include the following:

- Describe your interaction with older persons when you were a child. How did these experiences influence your view of aging?
- Describe your own process of aging. How do you feel about the age you are now? What are your fears about aging? What pleasant experiences do you anticipate as you age?

- What is your view of healthy aging? Have you had any role models for healthy aging? If yes, please describe at least one person's influence on your attitudes toward aging.
- How do your religious beliefs affect your view of aging?
- Conclude with a summary of your personal view of aging.

The paper should be typed according to APA, 6th ed. You may use first person ("I") in this paper.

Reading and Class Participation

Students are expected to read the entire textbook prior to the beginning of class. Students are expected to be prepared for class and to actively participate in class discussions and assignments. Students must attend all class sessions of the workshop.

Interview/Paper

Interview a person 70 years of age or older who is not related to you. Plan to spend 3-4 hours with the interviewee; schedule the time in 1-1 ½ hour segments (be sensitive to the needs of the older adult). Include the following topics in your interview: personal attitudes about the later years, his/her assessment of society's response to older persons, the support network available to him/her (examples: friends, family, church), current physical condition, level of life satisfaction and contributing factors, current situation regarding work or retirement, long-range plans about health care and housing alternatives, church and community involvement, and view of death and dying.

At the beginning of the interview, explain the purpose of the assignment to the interviewee and obtain his/her consent to be interviewed (use form attached to the syllabus). Keep a copy of the consent form and give a copy to the interviewee.

Write a 5-6 page paper about your interview addressing the above named topics for discussion. The paper should be typed according to APA, 6th edition. Write in paragraph form; do not merely list the interview questions and the answers.

Finally, state your reaction to the interview. How did you feel about the interview? How did the person react to the interview? What did you learn from the interview? You may use first person in this section of the paper.

Notify the instructor by email no later than July 6 that you have enlisted someone to interview. If you have difficulty identifying anyone to interview, notify the instructor as soon as possible.

Presentation and Paper on Research Topic

Each person will select and research a problem, need, or issue which impacts older adults.

1. Each student will have 35-40 minutes to present his/her research in class. The student should prepare a PowerPoint for the presentation.

2. The body of the paper should be 10-12 pages. The paper should be typed in Times New Roman, 12 point type, according to APA, 6th ed.

The presentation and paper should:

A. Introduce the research topic.

B. Provide statistics to illustrate the extent of the problem, need, or issue.

- C. Explain why the topic is important to address at this time.
- D. Discuss how long the topic has been a problem, need, or issue.
- E. Explain whether the problem, need, or issue appears to be increasing or decreasing. Provide data to support this claim.
- F. Explain the potential impact of the topic on elders, their families, and the community (or society in general).
- G. Discuss available services including formal and informal services that are currently available to serve elders and their families affected by the topic. Explore the use of technology in addressing the topic.
- H. Discuss gaps in services and identify issues in addressing these gaps. Provide recommendations for how social workers and the church could help eliminate service gaps.
- I. Include a bibliography of 10-12 resources utilized.

Possible research topics include: substance abuse, housing, dementia, long-term care, retirement, poverty, social isolation, and depression. All research topics must be approved by the professor. Email the professor your topic choice by Thursday, July 6, 4 p.m.
