PhD Fellowship Extension Request

I, _____, am requesting an extension of my current NOBTS PhD Fellowship award. I understand that the initial fellowship award was granted for a total of four years. However, due to circumstances that have extended my anticipated time in the PhD program, I have not yet completed my degree. I have discussed those circumstances with my undersigned faculty supervisor and am, therefore, submitting this request for an extension of the award.

Furthermore, I understand that this extension, if granted, will be for no more than up to one year. If I do not complete my PhD program within that one-year timeframe, I acknowledge that I will not be granted any further extension of the fellowship award. Any charges applied to my account after the one-year extension will be my responsibility to pay.
