## **Executive Summary**

This is a brand new program, created in 2023 specifically for students at correctional facilities. It will be vital for Dr. Doughty to engage with the Director of Distance Programs, Dr. Ben Browning. Drs. Doughty and Browning have already been working together to verify embedded assignment instructions and complete artifact collection, a process made more difficult with the lack of electronic resources at prison sites. This jury brought to light the difficulty of 6 educational sites on tight 4-year course schedule cycles when it comes to assessment. The action plans largely pertain to collection of valuable data but also include some full-time faculty engagement with Dr. Browning and prison instructors to improve student learning. All measures of the new assessment plan fit the nature of the program and the mission of the institution, so time to measure against our new benchmarks should be informative.
